

专业生产 易撕PET薄膜 易撕OPP薄膜  
Specializing in the PET easy tear film & the opp easy tear film

专业生产 易撕PET薄膜 易撕OPP薄膜  
Specializing in the PET easy tear film & the opp easy tear film

## Application

The laminated packaging material

The security label

The packaging bag of medical device

Easy-tear cover film

The packaging bag for coffee or other food

easy-tear adhesive tape

Easy-tear BOPET, BOPP film

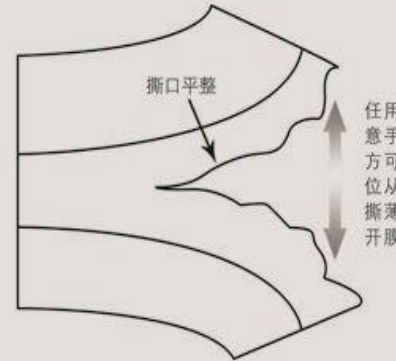

主营产品 >>>>>  
The Main Products

The main products:

Easy-tear BOPET film

Easy-tear BOPP film

you can tear the film easily by hand from anywhere and this opening is smooth.

PET薄膜是一种性能比较全面的包装薄膜，主要用于复合印刷。其透明性好，有光泽；具有良好的气密性和保香性；防潮性等，在低温下透湿率下降。PET薄膜的机械性能优良，其强韧性是所有热塑性塑料中最好的，抗张强度和抗冲击强度比一般

薄膜高得多；且挺力好，尺寸稳定，适于印刷、复袋等。PET薄膜还具有优良的耐热、耐寒性和良好的耐化学药品性和耐油性。易撕PET薄膜是PET薄膜中的一个分类，主要特点是在具备普通PET薄膜的特征的基础上还具备容易撕裂的特点。现在市场上的很多PET复合出来的袋子，都带有牙齿或者打一个缺口，我们在使用时基本上是从牙齿或缺口处撕开的。但是现在易撕PET

复合出来的袋子就可以从袋子任意部位撕开，易撕胶带可以用手直接撕开而不用借助剪刀或其他工具。

BOPET film (biaxially oriented Polyester films) has good thermal stability and tenacity; low air and water permeability; applicable to vacuum aluminum plating, compound package, cooking bag manufacture, etc.

Featuring :

Having the good adhesion with ink and coating, can be used for multi-color printings with good flatness. Is mainly used in heat-sealing bags of frozen food, industrial products and cosmetics packaging. If you use our Easy-tear BOPET, BOPP Film to develop all kinds of food packaging bags with color printing, you can tear easily from any direction and position by hand without difficulty.
